NUMBER 180

## CITY'S TRAFFIC WORK AIRED

Officials Point To Record  
Of Fourth Of July Period:  
Only One Citation

Placerville's problem of traffic enforcement was aired before the city council on Monday evening when the council was visited by a delegation representing the El Dorado County Chamber of Commerce.

The delegation presented the results of a recent survey made by the chamber, which tend toward the conclusion that some modification of the traffic enforcement program is desirable.

The members of the delegation were assured of the council's desire that traffic be regulated with a minimum of inconvenience to all parties.

Members of the council pointed out that during the Fourth of July week-end, there were only 15 cars stopped by city officers and of these, only one driver was given a citation.

The council, it was said, recognizes it to be true that the form which traffic enforcement takes may easily engender the ill will of persons cited and has, for some months past, given particular attention to this problem.

Mayor George E. Faugsted said the council has a problem in traffic enforcement and will welcome the suggestions of parties interested.

"We feel that the streets must be kept reasonably clear," Mr. Faugsted said. "On the other hand, we recognize the tourists and out-of-town people as visitors to our community."

"We have been using courtesy cards for some months past. Hundreds of them have been given out and in most instances the motorists have responded willingly to our suggestions for co-operation in keeping traffic regulated."

"The council wants the city officers to be courteous at all times and to work toward the end of keeping the streets open and clear and the traffic regulated." (Turn to Page 3)

## Summit Seeking Electricity

Charles Rohrer President Of  
Electrification District;  
M. R. Springer, Secretary

Residents of the Summit district have formed the Summit Rural Electrification District, looking toward the day when electric power may be available to the homes of that section.

President of the district organization is Charles Rohrer, with M. R. Springer, secretary.

Other officers are C. G. Bryan, vice-president; and L. A. Bender, George Ruoff and George W. Dean as members of the executive committee.

The electrification project has been developed following a series of meetings held under auspices of the Summit Farm Center.

It is reported that the course which the district will follow to achieve its objective has not been determined.

## FARES TO LAKE TAHOE ARE LOWEST IN HISTORY VIA PIERCE-ARROW

A new low round trip fare to Lake Tahoe, the lowest in history via Pierce-Arrow Stage Lines, is now in effect, it was announced Tuesday.

The one-way fare is \$3.50 or \$4.75 for the round trip.

Pierce-Arrow stages operate daily to and from Lake Tahoe and there is a special week-end schedule leaving Placerville at 4:10 p. m. Saturday and arriving in Placerville at 5:45 p. m. Sunday for the convenience of those who wish to spend that period in the Tahoe region.

## Amelia Earhart Remembered In Memorial Exercises

ATCHISON, Kan. (UP)—Amelia Earhart's home town held a memorial service last night, the nearest approach to a funeral that could be provided for the woman flier who was lost in the Pacific Ocean a month ago.

Her nearest living relative, Theodore H. Otis, an uncle, sat near the speaker's platform. Hundreds were there who had known Miss Earhart in her childhood.

**FRIENDS NOW; FOES LATER**—Those two heavyweight boxers who plan to hammer each other in New York on Aug. 26, made it all legal by signing up at the New York State Athletic Commission offices in New York and shook hands on it. At left is Joe Louis, heavyweight champion, of Detroit, with Tommy Farr, Welsh fighter, challenger for the title.

## UTILITIES ASSESSED ON \$4,340,750

County Figures Made Public  
In Report Filed With  
Equalization Board

SACRAMENTO—Public utility property throughout California was valued at \$1,004,512,260 for assessment purposes in a report filed today with the state board of equalization by A. G. Mott, director of the board's valuation division.

This total included tangible property valued at \$949,423,340, and intangible property, or solvent credits, amounting to \$55,094,920. The whole represented an increase of approximately five per cent over the value set by the board in 1936, and followed closely the increase of approximately six per cent established by independent county assessors on common property.

In El Dorado County the 1936 utility values included tangible property, \$4,215,080 as compared with 1937, tangible property, \$4,340,750.

Under the tax revision plan of 1933 by means of which public utility property was returned to local tax rolls, the state board of equalization was required to assess such property each year by the first Monday in August. Following that assessment any taxpayer may have a hearing on a petition for reassessment, but final findings must be prepared by the third Monday of August and thereafter submitted to county assessors.

## AGED SHINGLE NATIVE TAKEN MONDAY NIGHT BY HEART ATTACK

George Smith, aged 82, a native of Shingle Springs, died Monday night at his home at that place of a heart attack. The body is in the care of the Dillinger mortuary. Funeral arrangements are pending.

Mr. Smith was the father of nine children and was the grandfather of Llewellyn Richard Daniels, killed recently near Shingle when his auto crashed into a tree.

Although Mr. Smith's health had not been good for several months, he was able to be up and about and paid his regular visit to Placerville Monday.

## Placerville Man Gets License To Wed Red Bluff Woman

Among marriage licenses issued over the week-end at Reno, according to reports from that place, was one issued to Roger A. Stancil, 36, of Placerville, and Mary A. Dais, 34, of Red Bluff.

## COBRAS FOUND IN BUS

RANGOON (UP)—Two deadly cobras travelled as unwanted passengers on a bus in Upper Burma and nearly caused a serious accident when they appeared in the driver's compartment. They were concealed among a load of furniture and flower-pots which were in a bus.

J. C. Akin was in town from Missouri Flat, Tuesday.

## "Kid McCoy," Wed Again, Dodges "Count Of Ten"

RUSHVILLE, Ind. (UP)—Former middleweight champion "Kid McCoy" clasped his ninth bride firmly about the waist today and announced that he was sure this marriage would last. "It's got to last," he said, "they count me out at 10."

McCoy, whose real name is Norman Selby, and Mrs. Sue Cowley of Detroit, distant cousin of Irvin S. Cobb, the humorist, were married at Rushville Christian church yesterday. Selby gave his age as 63, Mrs. Cowley as 44.

## Debt \$23.93 Per Capita, Claim

Governmental Units In County  
Are Pledged To Redeem  
\$311,500 In Obligations

Bonded debt outstanding of the governmental units in El Dorado County totalled \$311,500, or \$23.92 per capita as of June 30, 1936, according to findings of California Taxpayers' Association.

Total bonded debt in the county was made up of \$40,000 for the county government, \$177,000 for the school districts, and \$94,500 for municipalities within the county, the association found.

In only one California county, Mono, no local bonded indebtedness was shown at June 30, 1936, the study brought out, while the per capita debt in Trinity County was but 22 cents and that in Amador County but 29 cents. Other counties in which the local bonded indebtedness averaged less than \$20 per capita were Sierra, \$1.66; Plumas, \$3.17; Tuolumne, \$11.20; Alpine, \$11.40; Sacramento, \$11.45; Siskiyou, \$12.41; Calaveras, \$18.44; Kern, \$18.53; and San Benito, \$18.87.

Counties in which local bonded indebtedness averaged over \$100 per capita were Colusa, \$436.98, due largely to reclamation district bonds; Los Angeles, \$153.15; San Diego, \$113.87; and San Luis Obispo, \$101.01, the association found.

The indebtedness of many irrigation, reclamation, water, etc., districts is not reported to the state controller, and these figures, therefore, are not included uniformly in the total or per capita figures presented by the association.

Government debt, the association warned, is progressively becoming more and more burdensome. With the federal government reporting a gross public debt at June 30, 1937, of \$36,425,000,000, and the total California state debt outstanding at \$212,373,787 as of May 15, 1937, it behooves each taxpayer to scrutinize carefully each and every proposal to increase the debt of any governmental unit of which he is a part—for every dollar of that debt must be repaid in taxes.

E. E. Juckes was a caller Tuesday from Youngs.

## OPEN WAR NEAR IN ORIENT

U. S. Consuls Act To Protect  
Americans As China, Hopeful  
Of Soviet Aid, Faces Conflict

By UNITED PRESS

SHANGHAI—American diplomatic and consular officials make preparations to safeguard Americans; danger points may be evacuated and Americans in big cities gathered for safety in foreign concessions.

TIENTSIN—Japanese planes open big offensive on Chinese government troops advancing northward on Tientsin-Peiping area.

MOSCOW—Russia protests strongly against raid on Soviet consulate general in Tientsin.

TOKYO—Regulations prepared to suppress profiteering and price-raising as Japan prepares for war.

GENEVA—Chinese study whether invocation of nine-power treaty and league covenant could curb Japanese.

By H. R. EKINS

United Press Staff Correspondent  
SHANGHAI (Copyright, 1937, By United Press)—Encouraged by widespread reports that Soviet Russia will threaten military pressure unless Japan gives her "satisfaction" for Sunday night's raid on the Russian consulate-general in Tientsin, in which consular archives were seized, China tonight rushed additional reinforcements to the Yellow River and prepared for a showdown fight.

The Chinese based their hope of Soviet military assistance on these factors:

1.—Russia would like to regain her old dominant position in North Manchuria, now Manchukuo, and regain the vital Chinese eastern railway which the Japanese forced her to surrender following the Chinese-Japanese wars of 1911-33. The railway is an essential.

(Turn to Page 4)

## Court Battle Flares Anew

Senatgr Borah Declares No  
Vacancy Exists Despite  
Justice's Resignation

By LYLE C. WILSON

United Press Staff Correspondent  
WASHINGTON (UP)—President Roosevelt will demand a showdown in 1938 on his "new blood" injection for the Supreme Court in the opinion of some parties to the judiciary dispute which exploded again today in argument jeopardizing Democratic party harmony.

A Senate Democratic bloc now challenges Mr. Roosevelt's presumed intention to delay until Congress adjourns the nomination of a successor to Justice Willis Van Devanter who retired from the Supreme Court, June 2.

Washington sizzled with reports that Mr. Roosevelt would renew his effort to expand the court with a proposal for a constitutional amendment or, at least, with a restatement of his "objectives" in judiciary reorganization.

Senator William E. Borah, R., Idaho, today in the Senate denied that any vacancy existed on the Supreme Court despite retirement of Justice William Van Devanter. He told the Senate that vacancies on the court could be created only by impeachment, resignation or death. Borah said he believed Attorney General Homer S. Cummings had raised that question with President Roosevelt yesterday in his advisory opinion to the White House declaring a recess appointment to the court to be constitutional.

## Bremerton Man, Injured, Awakens In L. A.

LOS ANGELES (UP)—Glen Moore, 21-year-old civil employee at the Bremerton, Washington navy yard, was injured in his office at Bremerton yesterday, and the next thing he knew he was sitting in a bench in Pershing Square here, he revealed today.

In Moore's clothing was a receipt for an airplane ticket from Seattle to Los Angeles, showing he left Seattle at 4:15 p. m. yesterday and arrived here at 11:15 p. m., apparently completing his trip from the airport to the city by a Biltmore Hotel airport bus.

Jack Houston was a visitor on Tuesday from Coloma.

**MATADOR**—Fermin Espinoza, who, as Armillita, is known as the foremost matador in the Mexican bull rings, with his recent bride, the former Ana Maria Acuna. She is one of Mexico City's wealthiest girls.

## 20 CTS. PER CAPITA COST OF SCHOOLS

Expenditures For 1935-'36  
Fiscal Year Reviewed By  
Taxpayer Association

Per capita expenditures by El Dorado County for county functions alone totalled \$19.39 for the fiscal year 1935-'36, according to figures just released by California Taxpayers' Association.

For each man, woman, and child in the county, the county spent \$3.69 for general government, \$1.97 for protection to persons and property, 53 cents for health and sanitation, \$7.19 for highways and bridges, 47 cents for recreation, \$4.68 for charities, 21 cents for miscellaneous, 45 cents for debt payments, and 20 cents for education, the last sum being the expenditures per capita for the work of the county superintendent of schools and the county library, the association found.

Average per capita expenditures for county government functions alone in the state as a whole were \$17.52, the association stated. This included an average county expenditure of \$3.17 per capita for general government, \$1.65 for protection to persons and (Turn to Page 4)

## YOUTHS FINED FOR BUYING LIQUOR; FIRST CASE UNDER NEW LAW

Bert Quimby and Edward Paugh were found guilty Tuesday morning before Police Judge Eugene Creed of violations of section 61 b of the Alcoholic Beverage Control Act, and were fined \$10 each.

The charges against them were the first preferred in this county under the new section, which makes it a misdemeanor for a minor to purchase liquor.

District Attorney Henry S. Lyon said charges will be brought against three Placerville dealers in liquors who are alleged to have sold liquors to minors.

## Eddie Duchin's Wife Dies Following Childbirth

NEW YORK (UP)—Mrs. Marjorie Oelrichs Duchin, 29, who was dropped from the social register because she married Eddie Duchin, orchestra leader, died today less than a week after giving birth to a son at the Harbor Sanitarium. Several blood transfusions were administered to the former debutante but she grew worse. Duchin was present when she died at 5:30 a. m.

## Oakland Cashier Loses \$809 To Fleet Purse Snatcher

OAKLAND (UP)—Police searched today for a purse snatcher who escaped with \$809 in a flight over roof tops. The thief took the money from Mrs. Amelia Kahn, cafeteria cashier, on her way to a bank. He then darted into a building, took an elevator to the top floor and vanished over the surrounding roof tops.

## KIDNAP SUSPECT ARRESTED

26-Year-Old Truck Driver  
Jailed In Texas; Girl, 13,  
Reports "Elopment"

ELECTRA, Tex. (UP)—The elopment of a 26-year-old truck driver with a 13-year-old Tonopah, Nev., high school girl was intercepted by Texas authorities today.

Olive Carr, the girl, daughter of a Tonopah merchant and rancher, was held here while authorities sought to contact her parents. The truck driver, who lured her from her home last Wednesday night, was held in the Archer City, Texas jail. He is Earl Wilson.

Miss Carr told authorities here that she and Wilson had hitch hiked from Tonopah to California and then had backtracked to El Paso. She said that they quarrelled yesterday because Wilson had been drinking "too much" and forgot to carry out his promise to marry her.

"He promised to marry me when we left Tonopah," the girl said. "But after we were on the road he never mentioned marriage again. We quarrelled at Olney yesterday. He was drinking too much and I left him."

The girl said that she did not know that her parents were looking for her, nor was she aware of the kidnapping charge against Wilson.

Police Chief A. D. Graves of Olney, was called to Archer County late Monday to investigate a report that a man and girl were quarreling beside the highway.

When Graves arrived, the girl had gone. The man, who said his name was Wilson, expressed concern over the girl, who had caught a ride in a car driving toward Wichita Falls.

The suspect said that the girl was Olive Carr. He was held at Olney last night and taken to Archer City today.

The girl was taken in custody here today.

## Spouse Hunted For Murder

Fresno Man Identified As  
Slayer Of Ex-Wife; Sought  
In San Joaquin Valley

FRESNO (UP)—Eugene C. Journey, 58, electrician, was sought today by San Joaquin Valley authorities for the murder of his divorced wife, Mrs. Lydia M. Journey, 39, whom he assertedly shot three times in her highway cafe last night.

Witnesses told officers that Journey walked inside the cafe and with little warning fired five times at his estranged wife. Three of the bullets struck her in the chest and she slumped behind the counter. She died before medical aid could be secured.

Mrs. Journey is survived by four children, Woodrow, 19, of Delano, Betty, 17, Wanda, 16, and Robert, 13, of Fresno; two sisters, Mrs. Marie Marshall, Scotia, and Mrs. Eunice Harrison, Oregon; a brother, John Pritchard and her father, both of Louisiana.

The Journeys were former residents of Madera and operated the Fresno Cafe, auto camp and service station before their separation.

## COWBOY ENTERTAINERS WILL APPEAR TONIGHT AT CITY PLAYGROUND

We have been asked to say that the Butler Cowboy entertainers will appear tonight at the city playground on Benham street, presenting a cowboy clown and trick and fancy roping. The entertainment is free and those who attend are under no obligation.

## Mrs. Thomas Opens Dress Shop On Main Street

Mrs. Jennie Thomas has returned to Placerville after a few months absence, and has opened a business at 585 Main street, just two doors east of the Antique Shop. Dressmaking, alterations and sewing of all kinds will be engaged in. Mrs. Thomas formerly operated a similar place here and her many friends will be glad to hear of her return.

Louis Strickland was a caller Tuesday from El Dorado.

## MOTHER AND SON LIVE FOUR YEARS IN TAX-FREE, RENT-FREE HOME

ST. PAUL (UP)—Luckiest household in St. Paul, as far as rents goes at least, is that of Mrs. G. E. Foster and her son, John.

During an investigation of tax delinquent lands and buildings, Len Seamer, city valuation expert, called on the Foster home, which was included in his list of properties to be investigated.

### SUMMONS

In the Superior Court of the State of California, in and for the County of El Dorado.

EDGAR BALSHAW, Plaintiff,  
vs.  
CHESTER W. ROBSON, THELMA ROBSON, and also all other persons unknown claiming any right, title, estate, lien or interest in the real property described in the complaint adverse to plaintiff's ownership or any cloud upon plaintiff's title thereto, Defendants.

THE PEOPLE OF THE STATE OF CALIFORNIA SEND GREETINGS TO CHESTER W. ROBSON, THELMA ROBSON, and also all other persons unknown claiming any right, title, estate, lien or interest in the real property described in the Complaint adverse to plaintiff's ownership or any cloud upon plaintiff's title thereto, Defendants.

YOU ARE HEREBY NOTIFIED that an action was brought against you by the above named plaintiff in the Superior Court of the County of El Dorado, State of California, by filing a complaint in the office of the Clerk of said Court on the 17th day of May, 1937, in which action EDGAR BALSHAW is plaintiff and you are defendants.

YOU ARE FURTHER NOTIFIED that the property affected by said action is described as all that certain real property situate in the County of El Dorado, State of California, described as follows, to-wit:

COMMENCING at the section corner common to sections 3, 4, 9 and 10, Township Ten North, Range Twelve East, M. D. M., thence along the east boundary of said Section 4, N. 0° 16' E. 1038.3 ft. to a 4 inch post, set in the ground in a mound of rocks on the southerly side of the Lake Tahoe State Highway; whence a cedar bears N. 51° 22' W. 44.0 feet, distant, thence N. 0° 16' E. 30.74 feet to the center line of said State Highway; thence along the center line of said Highway N. 77° 5' 30" W. 637.0 feet to a point on said center line; thence along the Westerly boundary of E 1/4 of SE 1/4 of said Section 4, S. 0° 02' E. 30.78 feet to a post on the southerly side of said State Highway, thence following the said west boundary of said E 1/4 of SE 1/4 of said Section 4, S. 0° 02' E. (at 1154.8 ft. intersect the south boundary of said section 4, at N. 86° 36' 30" W. 615.2 feet from the southeast corner thereof) 1387.4 ft. to the southwest corner, an oak stake, 2 ins. square 2 ft. high, set in the ground in a mound of rocks; from which a black oak bears S. 13° 06' E. 112 ft. a black oak bears N. 17° 35' E. 32.6 ft. thence S. 77° 05' E. 630.65 ft. to the east boundary of said Section 9, whence a yellow pine bears N. 51° 12' E. 30.4 ft. thence along the easterly boundary of said Section 9, N. 0° 02' W. 347.8 ft. to the place of beginning.

YOU ARE FURTHER NOTIFIED that the object of said suit is to obtain a decree of said Court requiring you to set forth the nature of your respective claims against said property, and that all adverse claims of the defendants, and each of them, may be determined by a decree of said Court, and that by said decree it may be declared and adjudged that the said defendants have not any estate or interest whatever in or to said premises, or in or to any part thereof; and that the title of the plaintiff thereto is good and valid; and that you and all other persons unknown claiming any right, title, estate, lien or interest in said property or any part thereof adverse to plaintiff's ownership or any cloud upon the plaintiff's title thereto be forever enjoined and debarred from asserting any claim whatever in or to said premises.

YOU ARE HEREBY DIRECTED to appear and answer said complaint within ten days from the service of this summons exclusive of the day of service if served on you in said County of El Dorado, and within thirty days, exclusive of the day of service, if served elsewhere.

AND YOU ARE FURTHER NOTIFIED that unless you so appear and answer within the time specified that the plaintiff will take judgment for any money or damages demanded in the complaint as arising on contract, or will apply to the Court for any other relief demanded in the complaint.

IN WITNESS WHEREOF, I, ARTHUR J. KOLETZKE, Clerk of the Court aforesaid, do hereby set my hand and affix the seal of said Court this 17th day of May, 1937.

ARTHUR J. KOLETZKE, Clerk.  
By V. H. Benson, Deputy Clerk.  
(SEAL)  
First publication, June 15-10t weekly. August 17.

gated.  
"Are you the owner?" Seamer asked Foster.

"No."

"Are you renting?"

"No."

"Are you related to the owner?"

"No."

"Has anyone been around to collect the rents?"

"No."

"How long have you lived here?"

"About four years."

Inquiry revealed the Fosters had moved in when friends told them the previous tenants, who also had not paid rent, moved out. Taxes have been delinquent since 1920.

### 33. GRANDMOTHER

GROVERTON, N. H. (UP)—Mrs. William Cox claims the distinction of being New England's youngest grandmother. She has a month-old granddaughter. Mrs. Cox is 33.

## "HAMBURGER" ORIGINATED BY LUMBER CAMP BUTCHER, HE PROCLAIMS

STILLWATER, Minn. (UP)—He is modest about it, but if you raise the point Louis Meyer, veteran Stillwater butcher (retired), will admit that he is the originator of hamburger.

Years ago, when Stillwater was a booming lumber town, Meyer operated a meat market for the late Isaac Staples.

As he relates it, he was working in the back of the shop one day and ground up a few cuts of beef, seasoned them and gave the meat paste a trial on a griddle.

Staples arrived on the scene; remarked at the pleasing odor of the cooked meat. He tasted it and asked: "What you call this?"

Without missing a stroke of his sharp knife, Louis replied:

"I think I call it hamburger."

## Woman Burns To Death In Tulare Auto Smash

TULARE (UP)—Mrs. Terry Stevens, 48, of San Pedro, was burned to death and three persons received serious injuries today when two cars collided head-on six miles north of Tulare on the Golden State Highway.

Mrs. Stevens was a passenger in the car of William O. Gould of Harbor City. Authorities held Gould in technical custody after the wreck, alleging that he dozed at the wheel, failed to make a turn in the highway and crashed into a machine driven by Edwin L. Smith, 35, of Oakland.

Frank Bullard, Woodland, topped the ram sale at Azona, Texas, with a Rambouillet buck that sold for \$460.

And that is how hamburger came to be and how it got its name—according to Louis Meyer.

## "Zep" To Use Helium

Nazi Airship Being Remodeled To Use Non-Explosive Lifting Element; Hydrogen Banned

FRIEDRICHSHAFEN (UP)—Zeppelin engineers have started work to transform Germany's new giant airship LZ 130 for the use of helium instead of hydrogen.

This is a sequel to the disaster which overtook the airship Hindenburg.

The original plan for the LZ 130 was to enlarge the balloon to compensate for the difference in weight between the two gases, but this had to be abandoned because it was found that existing hangars would not accommodate a larger airship.

So the dirigible is to remain the same size as the Hindenburg, and other methods are being found to compensate for the greater weight of helium. The total weight of the airship must be reduced by 20 tons if the cruising range is to remain the same and the passenger accommodations left at 50.

Engineers therefore are examining all details of the airship to detect any parts which could be made in lighter material. Another problem to be solved is the conservation of the expensive helium. The Hindenburg used to release 200,000 cubic meters of hydrogen each trip to prevent the ship becoming too buoyant as the engine fuel was used up. Helium cannot be dissipated like this. Engineers are considering means of producing synthetic water for ballast during the trip.

## NEW COMMERCIAL TREATY WITH YUGOSLAVIA TO REPLACE 56-YEAR-OLD PACT

BELGRADE (UP)—The antiquated 56-year-old existing trade treaty between Yugoslavia and the United States soon will be replaced by a new pact, according to present indications.

The present agreement, which was concluded between Washington and pre-war Serbia on October 14, 1881, is among the world's most venerable documents of this kind which have remained in force.

Failure of this treaty to be adjusted to modern trade conditions has greatly hampered the development of normal relations between the two countries. In fact, the exchange of goods with the United States has come almost to a standstill in the last two years because of the strict application by the Belgrade government of a clearing system with countries which purchased less from than they sold to Yugoslavia, as was the case with America.

Representations concerning this situation were made by the Department of Commerce to Yugoslavia recently, and it is hoped that negotiations for a new commercial treaty will begin soon.

## POSITION OF PASSENGER AT TIME OF WRECK ACCOUNTS FOR HELP INJURIES

LINCOLN, Neb. (UP)—Don't cross your legs if you are riding in the front seat of an automobile with a reckless driver.

That is the advice of Dr. Robert Funsten, professor of orthopedic surgery at the University of Virginia. He read a paper on "Dashboard Dislocations of the Hip" at the 50th annual convention of the American Orthopaedic Association, here.

This type injury is a frequent result of automobile collisions and presents a serious surgical problem, he said. The passenger in the front seat can avoid it by planting both feet on the floor boards and leaning well back in the seat.

If he crosses his legs, he is apt to dislocate his hip as well as injure his knee. That means confinement in a hospital for eight or ten weeks, Dr. Funsten said.

Charles Rohrer was in town from Summit section on Tuesday.

## PARADE OF SPORTS

By HENRY McLEMORE  
(United Press Staff Writer)

NEWPORT, R. I. (UP)—In a simple ceremony in Morton Park, under the shades of the lovely trees for which this little city is noted, Thomas Octave Murdoch Sopwith will be presented today with a plaque inscribed with these stirring Latin words, "Is there a doctor in the house?"

The presentation will be made by Philbert R. Clutch, president of the international society for the postponement of the inevitable. Mr. Sopwith was chosen as the 1937 recipient yesterday when he asked for a day off in his America's cup races with Mike Vanderbilt and his Ranger.

In an exclusive interview with this writer, President Clutch said that he considered Sopwith's request for a day off the finest example of putting off the inevitable since Peggy Hopkins Joyce's second husband deliberately put her on the slowest train to Reno.

Mr. Sopwith also should receive some sort of award for high-goal optimism, because if he thinks one day is going to save him and his Endeavour II, from the knockout punch of four straight, he is as wrong as a turtle-neck sweater at a Buckingham Palace levee.

What he should have asked is a five-year stay of sentence, with time off for good behaviour. Yet that request might have been turned down, for yachting critics say he has yet to behave correctly behind Endeavour's wheel.

There was much speculation in this town as to what Mr. Sopwith planned to do on the day off. There were a hundred opinions. Some say he planned to take Endeavour to the shipyards, haul her out of the water and see if her keel had been fouled by a lobster pot in that 18 minute and 32 second licking of yesterday. It is believed that if he does find a lobster pot hanging to the bottom, and it is in good condition, he will ask the official committee to allow him to sail it, instead of Endeavour, tomorrow.

Others insist that he planned to use the day in getting a fitting for a dark beard and smoked glasses. Still others said he wanted the day off to visit the magistrate's court and have his name

## City's Traffic Work Aired

(continued from page 1)  
lated without offense or unnecessary inconvenience to the traveling public."

The proposed widening of Green street at Coloma street was left in the care of Councilman M. E. Raber and City Marshall James P. Morton.

Under the heading of fire protection, Marshall Morton exhibited the valve from a fire hydrant on Center street which was faulty in operation in the recent fire at the Placerville Bakery. Inspection of the valve led some members of the council to conclude that the valve might have been broken very recently and did not imply criticism of Marshall Morton.

Police court fines reported for July amounted to \$302.

City Marshall Morton reported on the installation of six refuse receptacles in the business district and also reviewed the work of the month in the water and street departments.

The council laid over the proposed garbage, sub-division and business licensing ordinances until a later meeting.

The expert's report, submitted by Mrs. Lucille Labordette, on her annual audit of the city accounts, was received, read and ordered filed.

Camp Bradley 11, Lincoln 4  
Georgetown 11, Grass Valley 6  
Other games canceled.

Dorothy McKinster is visiting Mr. and Mrs. Bob White.

Still others argued that he wanted to look at Ranger's bottom and see for himself that the American defender didn't have a trap door through which outboard motors or diesel engines were lowered. Still, still, still others believed he planned to go into retreat and spend 24 hours at prayers.

Still, still, still, still others (I now have more "stills" than a Georgia moonshiner) advanced the idea that he was going before the committee and ask for a new kind of course, being as he already has been licked at windward, leeward and the triangular business. His idea, as I heard it, was to ask that the third race be sailed on a baseball diamond and that he be given the right to run from second to home base, without touching third.

I, for one, am willing to have such a request granted. It would really be a sight, that Endeavour with spinnaker set, sliding into home.

Or am I boring you?

## CHINESE PRESSING RAILROAD EXTENSION; FOREIGN CAPITAL AIDS

SAN FRANCISCO (UP)—For the past four years, half a dozen leading European countries and the United States have been supplying China with some of the sinews of war, according to a survey by the Institute of Pacific Relations.

These particular sinews, the survey found, have been in credits and loans for construction of railways which constitute the very basis of the war potentiality of any country.

Since 1933, the institute said, loans and credits for mail construction in China have totaled \$100,000,000. The bulk of these have come from Great Britain, Germany, France, Belgium, Czechoslovakia, and the United States. The first advance of the latter was made last June through the United States Export-Import Bank. It amounted to only \$750,000, which was small in comparison with sums other countries had been pouring into China.

## Indians Gather For Pageant

Crow Reservation Scene Of Huge Gathering Scheduled To Open August 30th

By JOHN J. CUSANO  
United Press Staff Correspondent

CROW INDIAN RESERVATION, Mont. (UP)—Piercing yells, the beat of the tomtoms and the thudding of horses' hoofs, reminiscent of General Custer's last stand against the Sioux near Little Big Horn more than 60 years ago will be heard once again as the Indians of the Crow reservation act as hosts from August 30 to September 4 to hundreds of Indians representing dozens of tribes from the Mississippi River to the West Coast.

The gathering, unlike the mobilizations of years ago when thousands of Indians banded together to drive the white men out of the West, will in reality be a Plains Indians convention, with each tribe contributing to make the annual Crow Tribal Fair a success.

Tourists have been invited to attend the fair, as thousands of Red Men will appear in full tribal costume, dances and ceremonials and pageants reflecting the glory that once belonged to the Indians.

## Father Hubbard Maps Study Of White Skinned Indians

NOME, Alaska (UP)—Father Bernard R. Hubbard, the "Glacier Priest" from Santa Clara University, California, was preparing today to leave for Point Barrow, Alaska, and thence for King Island to attempt to compile a history of the native "white skinned" Eskimau, living there.

These people, one of the two surviving tribes of "original" Alaskans, are believed to hold the secret of the migration of humans from Asia to the American continent.

## Sears Point Toll Road Purchase Favored

SACRAMENTO (UP)—Director of Public Works Earl Lee Kelly said today he will recommend early action by the state highway commission toward state acquisition of the Sears Point toll road.

Kelly did not indicate when the purchase would be made, but some delay was anticipated because of variance in a state offer of \$120,000 and a minimum price of approximately \$200,000 set by the owners.

## 42 Called By Grand Jury In L. A. Gambling Inquiry

LOS ANGELES (UP)—E. L. "Zeke" Carass, wealthy betting commissioner, one-time kidnap victim and former close friends of Les Bruneman, wounded Redondo Beach gambler, today headed a list of 42 persons ordered before the grand jury in connection with the county-wide inquiry into gambling and vice.

Subpena servers sought Guy McAfee, Milton "Farmer" Page, and other reputed heads of gambling syndicates, but without success.

Mrs. P. L. Grace returned Sunday to Fresno following a visit here with her daughter and family, Mr. and Mrs. Herbert Stone. Mr. and Mrs. Stone are the parents of a son, Sheridan Stone, born recently at Fresno and Grandma Grace accompanied Mrs. Stone home from the raisin center.

## Home Builder Gets "Break"

Home Building Service Plan Of Government Protects Against "Jerry Builder"

WASHINGTON—Lending agencies and architects today were responding to an invitation from the government to give the small home seeker a "break"—to see that the millions in his pocket will be spent to yield him the largest possible return.

With the formal announcement of the new Federal Home Building Service Plan by the Federal Home Loan Bank Board last week, organizations swung into action throughout the country.

The plan is designed to give architectural advice and supervision on homes costing \$7500 and less, heretofore rarely utilized, to prevent shoddy construction and its inherent loss of property value. It was developed by the bank board after the operations of the Home Owners' Loan Corporation revealed the full extent of the use of improper materials and flimsy workmanship in the small home field.

The plan has been tested for almost two years, through the Home Loan Banks and their leading member institutions. In Boston, Indianapolis, Minneapolis, Memphis, and Little Rock, lending institutions and architects have been co-operating and operation of the plan in those cities soon will be under way, advice to the bank board indicated.

Briefly, it is pointed out, the home seeker of small and moderate means will be able to approach a lending institution and gain a full home service. At a modified fee, made possible by quantity construction, he will be given architectural advice on designing his home and selection of a structure suitable to his family needs, site and his neighborhood. He will get the largest possible loan on most liberal terms as his home will now be constructed under careful supervision to assure proper materials and workmanship. On completion, he will receive a federal certificate of registration, as a guarantee of sound construction, strengthening his security and the resale of his property.

## SQUIRRELS LINE NESTS WITH FLAGS STOLEN FROM VETERANS GRAVES

MADISON, Wis. (UP)—E. W. Mutchler, custodian of Forest Hill cemetery, who has been sitting up nights trying to catch the thief stealing flags off soldiers' graves, sleeps peacefully now.

So many of the flags, disappeared that the remaining old ones were replaced. Then the new ones started to disappear—and Mutchler sat up nights trying to catch the small boys he believed responsible for the flags vanishing.

A hard wind storm solved the mystery. A squirrel's nest was blown out of a tree. It was lined with 21 new American flags. Mutchler climbed trees and examined other squirrel nests. All were lined with flags, old and new.

## SPRING LAMB CROP FOR '37 14 PER CENT LESS THAN IN 1936

SACRAMENTO—California's spring lamb crop of 1937 was 331,000 head less than the 1936 crop, or about 14 per cent, according to the Federal-State Crop Reporting Service.

In a report released by Statistician George A. Scott, it was estimated that the 1937 spring lamb crop in California totaled 2,008,000 head, which is five per cent below the average crop in this state of the preceding five years.

The report said that the comparatively small lamb crop this year in California was the result of heavy losses of both ewes and lambs because of adverse weather and feed conditions during the spring and winter months. In fact, the percentage of lambs saved this season averaged only 69, the lowest for the state since the federal-state estimates were started in 1924.

## 72 MOOSE CAPTURED IN 3-YEAR CAMPAIGN ON ISLE ROYAL BY MICHIGAN OFFICERS

NEWBERRY, Mich. (UP)—A three-year project of moose trapping directed on Isle Royal by the Michigan conservation department has been completed with the capture of 72 animals.

Most of the moose were released on the Keweenaw peninsula, the Escanaba River tract, and at Cusino. Two bulls were shipped to a Detroit zoo.

Paul Hickie, conservation department mammologist, who was in charge of the trapping, said too few animals remain on the island to make further trapping feasible.

Slow starvation has thinned a once large herd down to 200 or 300 animals, he said.

Hickie said that he believed the surviving moose on the island would form a herd of 1,000 or more, since the territory now is under government supervision.

## ELEPHANT SEALS FOIL EFFORT OF SCIENTISTS TO LEARN SECRETS OF CUBS

SAN DIEGO (UP)—The age-old mystery of the location of the breeding grounds of the female elephant seal today still is as much of an enigma as the fabled "graveyard of the elephants."

A thorough search of the Guadalupe and Sedros Islands, off the coast of Mexico, by an expedition in charge of Captain G. Allan Hancock, millionaire patron of the sciences and a group of San Diego zoo officials, failed to reveal a trace of the long-sought breeding ground.

There were at least 1,500 males along the shores of the Guadalupe Islands, Dr. Harry Wegforth, president of the San Diego Zoological Society, said in commenting on the search.

"Not more than 35 or 40 females were to be found."

## OREGON SURPLUS

SALEM, Ore. (UP)—With a cash balance of \$13,677,370, Oregon is better off financially than at any other time in the last 15 years, it was reported by State Treasurer Rufus C. Holman. The balance is almost an all-time record.

Coops Brothers, Sonoma County, have built a box washing machine to kill codling moth larvae in apple boxes.

## Open War Near In Orient

(Continued from Page 1)  
tial link in the Soviet communications system connecting Moscow with Russia's only important port on the Pacific—Valdivostok.

2.—Russian control of outer Mongolia and her penetration of the vast hinterland west of Peiping, which has been going steadily for years, will be checked and Soviet influence in Central Asia wrecked if the Japanese complete their plan to gain control of all North China.

3.—Moscow fears that Japan plans eventually to seize Russia's Siberian maritime provinces to complete the Japanese program for "domination of Northern Asia." The Chinese believed that Moscow has been goaded to desperation by the series of Russo-Japanese border clashes during the last 18 months which has resulted in a steady increase in size of the Japanese controlled state of Manchukuo at the expense of the Soviets.

Meantime events moved rapidly toward a general Chinese-Japanese war in which more than 500,000 men soon may be engaged with the fate of 100,000,000 Chinese in the nation's five northern provinces at stake.

## CROMWELLS TO BUILD

HONOLULU (UP)—Doris Duke Cromwell, wealthy tobacco heiress, has taken out the permit for the construction of her \$300,000 home here. The shoreline property on which it will be erected cost her \$100,000 more. The Cromwells expect to spend six months of each year here.

## HOLLAND RUSHES AIR FLEET TO DEFEND FAR-FLUNG EMPIRE IN EAST INDIES

SINGAPORE (UP)—Holland is developing a veritable air armada for the protection of its rich island possessions in the East Indies.

This was explained by Lieutenant Colonel A. D. C. Van Oyen, commander of the Dutch East Indies army air service, while visiting Singapore in command of a good-will flight.

He said that the Dutch government was buying fighting planes from the United States, and more than 50 of the latest type of Glenn Martin bombers soon would be attached to the East Indies air strength, one squadron of those having already arrived.

The Dutch naval air service also is being modernized, and 18 Fokker long-distance reconnaissance machines are on order for the Indies. Six will arrive next December and the rest early next year. Already the Dutch naval air force in these waters includes more than 40 Dornier "Wals," 24 Fokker machines of a less modern type and 24 seaplanes used in conjunction with warships.

## ODD ROAD CREW

BLACK EARTH, Wis. (UP)—A modern paving machine laying 1,700 feet of concrete daily near here was operated by a Negro preacher from Madison and manned by Indians from northern Wisconsin.

## POLICE 2 UP

PASADENA (UP)—Police here have established an unprecedented record. With only 18 cars stolen during the past month, they succeeded in recovery 20.

"RESULTS OF EXTENSIVE TESTS conducted by the Contest Board of the American Automobile Association on the nine non-premium gasolines leading in sales volume in the Pacific Coast area substantiate the statement of the Standard Oil Company of California that Standard Gasoline is Unsurpassed."

AMERICAN AUTOMOBILE ASSOCIATION CONTEST BOARD, WASHINGTON, D. C.

STANDARD OIL COMPANY OF CALIFORNIA

## MOUNTAINEER, 80; PROUD FATHER FOR FIRST TIME; SECOND MATE AGED 41

HICKORY HOLLOW, Tenn. (UP)—George Brantley, 80-year-old father of a 6-week-old child, tapped the last nail in place and stepped back to admire the cradle he had just completed.

Brantley had made many cradles for families in the Hickory Hollow section near Knoxville, but this one was the first crib in more than 50 years of married life he had made for a child of his own.

Lusty little Alice Dale Brantley was born to Brantley and his 41-year-old wife in their two-story farm house near Big Ridge Park.

Buxom Mrs. Brantley has six children by a previous marriage. Brantley was married the first time 50 years ago, and that marriage lasted nearly half a century, but there were no children.

The 80-year-old father who was a barefoot boy when Civil War troops marched through the Hollow, said Alice Dale was his first child.

Born in the Union County ridges, Brantley never has lived more than 14 miles from his birthplace.

## FARM TO AID CHURCH

EAST LONGMEADOW, Mass. (UP)—The Congregational church ladies' aid society has started a chicken farm as a means of raising money for the church. Mrs. Andrew Nelson has purchased 100 chicks and hopes to feed them by donations of grain.

The city council of Marysville will not permit a garlic processing plant near there to resume operations.

## 20c Per Capita, School Cost

(continued from page 1)

property, 56 cents for health and sanitation, \$3.14 for highways and bridges, 19 cents for recreation, \$7.30 for charities, 29 cents for miscellaneous, 87 cents for debt payments, and 35 cents for education.

Alpine County had the highest expenditures per capita for general government, \$18.93, the association found, while Alameda County had the lowest, \$2.31. Kern County spent the largest amount per capita for health and sanitation, \$1.53, while Siskiyou spent the lowest, 2 cents. San Luis Obispo County spent the largest sum for charities, \$12.76, while Alpine spent the smallest amount, 43 cents per capita.

County and school budgets are being made up at the present time, the association pointed out. Most of these budgets call for definite increases in proposed expenditures, which increases will be reflected in higher tax bills in November. With public hearings on school budgets held between August 1 and 10 and on county budgets immediately after August 20, action by local taxpayers to demand economy in their local governments is necessary if taxes are to be kept even within speaking distance of those of preceding years, the association declared.

## BULLFROG CATCHES BIRD

CANITA, Okla. (UP)—A bullfrog that prefers birds to flies and bugs for its dinner is owned by Ed E. Dent. The other morning, Dent heard a commotion at his fish pond, investigated, found that the frog had captured a bird that ventured too near the pool.
